52027 West Althea Ave, Firebaugh, CA 93622 – (209) 364-6136 – panochewd.specialdistrict.org

REQUEST TO RESCHEDULE 2022 WATER

I am requesting to reschedule up to _____ AF of my 2022 Panoche Water District water supply into the 2023 Contract¹ water-year beginning March 1, 2023. I understand that my ability to reschedule water is limited by and subject to the US Bureau of Reclamation's Guidelines for rescheduling, including the potential loss of rescheduled water and all associated costs, which are non-refundable.

To process my request, I understand and agree to the following:

- The amount of water ultimately rescheduled will be determined by the District after accounting for January and February 2023 usage, transfers, and the availability of San Luis Reservoir storage capacity;
- The cost for the water I request to reschedule will be billed and paid for prior to rescheduling at the end of February 2023, including Reclamation's Rescheduling Fee of \$ 8.70/AF; however, 2023 O&M will be billed upon delivery;
- A true-up between the amount of water requested for rescheduling and the actual amount rescheduled will occur in the March billing and may result in additional costs or a refund/credit;
- The delivery of rescheduled water will be dependent upon accounts being in good standing;
- The amount of water ultimately rescheduled is subject to loss at any time, and the costs associated with any loss of rescheduled water are non-refundable.

This form must be submitted to the District by February 28, 2023.

For an invoice total specific to your reschedulable amount of water, please feel free to call the office.

Account Name: _____

Authorized Signature: _____

Please e-mail your requests to sreyes@panochewd.org or send by fax (209) 364-6122

¹ Contract = The District's Central Valley Project agricultural water supply contract with the U.S. Bureau of Reclamation.
