TELEPHONE (209) 364-6136 • FAX (209) 364-6122

REQUEST TO RESCHEDULE 2020 WATER

I am requesting to reschedule up to _____ AF of my 2020 Panoche Water District water supply into the 2021 Contract¹ water-year beginning March 1, 2021. I understand that my ability to reschedule water is limited by and subject to the US Bureau of Reclamation's Guidelines² for rescheduling, including the potential loss of rescheduled water and all associated costs, which are non-refundable.

To process my request, I understand and agree to the following:

- The amount of water ultimately rescheduled will be determined by the District after accounting for February 2021 usage, transfers, and the availability of San Luis Reservoir storage capacity;
- The cost for the water I request to reschedule will be billed and paid for prior to rescheduling at the end of February 2021, including Reclamation's Rescheduling Fee; however, 2021 O&M will be billed upon delivery;
- A true-up between the amount of water requested for rescheduling and the actual amount rescheduled will occur in the March billing and may result in additional costs or a refund/credit;
- The delivery of rescheduled water will be dependent upon accounts being in good standing and all required District information and Reclamation Reform Act forms having been received and verified;
- The amount of water ultimately rescheduled is subject to loss at any time, and the costs associated with any loss of rescheduled water are non-refundable.

This form must be submitted to the District by January 31, 2021.

Account Name: _____

Authorized Signature: _____

Please e-mail your requests to billings@panochewd.org or send by fax (209) 364-6122

¹ Contract = The District's Central Valley Project agricultural water supply contract with the U.S. Bureau of Reclamation.
