2021 Water Application

The undersigned hereby subscribes and agrees to be bound by the District's By-Laws and Rules and Regulations governing the purchase and use of irrigation water, the receipt of District water service, and for payment to the District of all sums necessary for the purchase and delivery of a pro-rata share per acre of the District's water supply, including supplemental sources. The undersigned acknowledges that the delivery of the water services listed above is dependent on the availability of water to the District.

CVP Water is to be used to irrigate the land described in my Bureau of Reclamation Certification or Reporting forms, and by signing below the undersigned hereby agrees to provide the District with these forms, as appropriate, prior to March 1, 2021. The undersigned understands and acknowledges that the District cannot deliver CVP Water until such time as the required forms have been verified, which can take days or weeks depending upon the number of changes and/or complexity of the reports.

The undersigned agree(s) to make payment for said water and water service as billed by the District as follows:

1. For Water Supply: Monthly Water Usage cost billed on or about the 15th of every month based upon actual metered deliveries through water user's assigned turnout(s).
2. For District Water Service (Operations & Maintenance): Monthly Water Delivery cost billed on or about the 15th of every month based upon actual metered deliveries through water user's assigned turnout(s).

If the District has to enforce any covenant or provision contained in this Application, the undersigned agree(s) to pay the District's reasonable fees, including attorney's fees, unless the undersigned prevail(s) in any such enforcement proceeding.

By signing this Application, and where two or more parties agree to the terms contained in this Application, each and every of the undersigned agree they are each bound jointly and severally to the terms of this Application, including those terms for timely payment for water services to the District.
