## 2021 SUPPLEMENTAL WATER DEMAND SURVEY

Account Name: \_\_\_\_\_

Authorized Signature: \_\_\_\_\_

Please indicate in the following table a quantity of water you would be willing to purchase at each assumed price per acre-foot. For example, you may want 500 acre-feet at \$300 per acre-foot but only 200 acre-feet at \$500 per acre-foot. Responding to the survey is not a commitment to purchase supplemental water; rather, it is a guide for the District's efforts to potentially source supplemental supplies. If a supplemental water supply is identified, you will be contacted based upon this survey. If you subscribe to a certain source of supplemental water, you will be presented a water purchase agreement at that time to validate and memorialize your subscription.
